AmeriCorps **Education Award Only (EAO)** are members completing their internship with Communities In Schools of Central Texas. EAO interns are placed at K-12 school campuses across Central Texas Independent School Districts.

Our AmeriCorps EAO interns provide services to students through 1:1 and small group facilitation. They aim to increase academic engagement and social emotional skills.

EAO interns will earn money towards school while completing their already required internship AND have access to additional training, support, and advantage in the CISCT hiring process.
